OUR GOALS

Twin Towers has established a reputation for giving students the opportunity to live their dreams. Whether that dream is proficiency in English, a better job, or even a change of career, we have enabled students to learn the 'international language of business' and gain the ability to use their newly acquired skills with confidence. We achieve this by means of a comprehensive teaching method that is structured, enjoyable, and rewarding.

In accordance with our motto, we strive to offer every student "Quality Education with Personal Attention", and to make every student's experience of the College both fulfilling and rewarding. This is achieved by continuous dialogue with the students, and regular progress monitoring.

LOCATION

Located in a desirable residential area of London, and only a 20 minute direct journey on the underground to the city centre, Finchley is in one of London's wealthiest boroughs, with numerous celebrities living in the area. Near the College, you can find cuisine from all over the world, as well as traditional English pub food and one of London's most famous 'fish & chip' restaurants. There is also the picturesque and historic Victoria Park, opened to commemorate Queen Victoria's Diamond Jubilee. The park, which is only a 2 minute walk from the College, has 6 public tennis courts and plenty of green space for football, cricket and other sporting activities. We also have the Arts Depot for culture lovers, and nearby, a large leisure complex with a bowling alley, cinema, gym and a variety of restaurants.

GETTING STARTED

On arrival at College, all students are tested and interviewed so that we can determine their level and place them in the appropriate class.

Students receive an induction on the first day of College, where they are introduced to key members of staff, given guidance, a welcome pack, and information about London. We also provide students with assistance to facilitate their stay, such as helping to open a bank account and obtain a discount on public transport, issuing student cards and offering other helpful advice.

Twin Towers has a lounge, where students can meet with fellow students and staff. The College has an interesting mix

of overseas and 'local' students who already live and work in London and are looking to improve their language skills.

Students have free access to the resources and computer area. Here, as well as throughout the College, students can use free high-speed wireless Internet to study and keep in touch with friends and family.

In the library section there's a range of books, including fiction and non-fiction, as well as DVDs, listening materials and study support books for students to borrow.

We understand how important a rapid integration is for students' success in their studies. We are always available to help with students' personal needs, and make every effort to ensure that students are happy and supported.

EXAM COURSES

The College offers courses leading to the most important University of Cambridge ESOL examinations. These exams are externally moderated and can be taken approximately every month.

These exams comprise different papers testing students' English language and skills knowledge; namely pronunciation / speaking, listening, reading, writing, and vocabulary / grammar.

For General English, the most important exams are: F.C.E (First Certificate in English), C.A.E (Certificate in Advanced English), and C.P.E (Certificate of Proficiency in English).

FCE is the gold standard of English language learning, the level to which the majority of students aspire. It is especially recognised by employers as proof of a candidate's high-level competence in the language.

CAE is an advanced qualification in English for those who wish to use English for professional or study purposes. It is recognised by most British universities, and in other countries, as proof that the holder has the language ability to follow a course of study in the medium of English.

Please see the price list for full details of course fees, class times and enrolment dates.

CPE is the highest level exam for English language learning, so holders of this certificate are internationally recognised as learners who have achieved an extremely high level of skill in the English language.

For Academic English, there is the IELTS exam (International English Language Testing System).

'General' IELTS is an increasingly popular qualification recognised by employers and government immigration agencies requiring proof of English language skills as part of their recruitment or admittance procedures.

'Academic' IELTS is the main certificate recognised by universities as showing a candidate's competence to begin undergraduate or postgraduate courses in a huge variety of subjects at any level.

For Business English, there are the BEC exams (Business English Certificates).

The BEC exams are widely recognised qualifications, helping candidates into employment in business and commerce, and improving their professional status.

ENGLISH LANGUAGE COURSES

We run morning, afternoon and evening courses for all levels which are year-round and divided into four terms. Students can choose from part-time, full-time and intensive courses. They can also enrol at any time throughout the year, as daily classes are largely academically self-contained and include regular revision sessions.

Our classes are small (on average 8 -12, with a maximum 16), and are of mixed nationality, ensuring all students have maximum opportunity to communicate in English.

We are an adult College (our students are aged 18+). However, occasionally we may have some students aged 16 and 17 years old.

Twin Towers teachers are carefully selected, appropriately qualified, dedicated professionals, who collectively have a wealth of knowledge, experience and expertise.

The most up-to-date course-books, materials and resources are used for teaching, in conjunction with a comprehensive Twin Towers language and skills syllabus for each level.

Our teachers also try to incorporate the latest, most effective teaching methods in their lessons, while

maintaining our all-round, comprehensive approach of developing and integrating students' pronunciation, vocabulary and grammar; as well as their listening, speaking, reading, and writing skills.

Part of our teaching methodology is to place particular importance on improving the students' communication skills of listening and speaking. We therefore offer conversation classes on Fridays at all levels. In these classes, language work develops from discussion and debate on popular and relevant topics.

The College stresses the importance of the teacher-student relationship by, for example, teachers ensuring students receive individual attention in class; and through our monthly tutorials for each student to discuss their continuously monitored progress. Teachers also place particular importance on individualising the feedback provided when monitoring students' class work and checking daily homework.

Students' academic progress is continuously assessed, and they are also given regular level tests to ensure the appropriateness of their courses and lessons.

College certificates and reports are issued at the conclusion of all courses, stating the student's achieved level and detailed language ability.

ENGLISH FOR SPECIFIC PURPOSES (ESP)

Courses are tailor-made for groups of professionals who require language development in their particular fields of work, covering specialised areas of vocabulary, such as Medicine & Biology, Chemistry, Banking & Finance, Oil & Gas, Engineering, Human Resources,

Executive Management & Marketing, and Law.
